Стулья коллекции TO-ME, LILIBET, KASIA, SANELA, NUTA

TO-ME

To-Me is a collection of chairs and armchairs that perfectly suit multiple applications: from hospitality to contract spaces, and even encompassing residential settings. Essentiality and efficiency come together to create a silhouette with a contemporary profile, surprising and elegant at the same time, suitable for both indoor and outdoor environments. Available with an optional comfy upholstered cushion, the To-Me collection comes in three colours with recycled Zero-Waste material.

LILIBET

The Lilibet collection is a family of stackable chairs made of technopolymer, with ethereal and clear lines, which are perfectly combined with functionality and seating comfort. Lilibet is suitable for both indoor and outdoor use and, thanks to the generous sizes and the modern colors available, it becomes the protagonist of prestigious environments. The collection is made exclusively with high quality materials, completely recyclable and environmentally friendly. Lilibet is also offered in three different shades using the “100% Gaber Recycled” material: a compound obtained from Post-Consumer Recycled plastic material (PCR) and from pre-consumer industrial plastic waste (PIR), which Gabe

KASIA

The Kasia collection, with its slim profile, delicately enhances the idea of comfort and hospitality, even for refined outdoor environments. The metal structure is treated for resistance to atmospheric agents, and combines with the technopolymer finish to enhance comfort and the possibility of customization for the most demanding contract projects. Stackable and heavy-duty for the everyday needs of bars, restaurants and hotels, Kasia adds a touch informal elegance to any commercial setting. Kasia Wrap retains its elegant structure and delicate shapes, enriched by skilful padding and upholstery, which give it an attractive and customizable appeal in an infinite number of combinations.

SANELA

Sanela is a modern contract seating collection featuring polyesterreinforced Italian rope, with an acrylic core: this is UV resistant and suitable for outdoor use, stain-resistant, water-oil repellent with Teflon treatment. The rope is wrapped around the

stackable steel frames of Senela chairs, armchairs, stools and sofas. Designers can choose from a choice of rope and frame colours, with the option of decorative cushions, in order to set off prestigious installations, both indoors and out.

NUTA LIGHT

The Nuta Light chair and matching barstool offer a very comfortable, wrap and modern style of seating for upscale restaurants, bars and hotels. The design choices give the collection a great formal lightness and an apparent simplicity, offset by technological devices, hidden in the structure of the padded seat and back, which make for even heavy-duty contract use. Or again in the deft backrest, which draws a soft curve, at the same time both embracing and supportive. Nuta Light is made with a sturdy metal structure to support seat and back, expertly padded and upholstered.

NUTA

Classic and authentic, elegant with fine detailing. Nuta is a seating collection made of technopolymer, with refined and timeless style, suitable for prestigious installations both indoors and out. These exquisitely defined lines of Nuta, harmoniously connected by Studio Favaretto, give a result that arouses wonder at first sight. Generous dimensions and superior ergonomic comfort distinguish Nuta in use, even for prolonged periods. A thin padded seat, as a welcome accessory, completes the possibility of combining the modern polymer colours with the most popular collections of fabrics and faux leathers.
